

CORE Health Foundation  
PO BOX 419  
Dripping Springs, Tx 78620

March 12, 2012

Dear Neighbor,

CORE Health Care is a rehabilitation center that provides post-acute rehabilitation and long-term care for adults with brain injuries, psychiatric disorders and other special needs. Along with a team of other therapists, we help these clients to reach their goals of improving their independence.

Each summer CORE Health Care sends a group on a fun filled weekend of camp (please visit their website at [www.campforall.org](http://www.campforall.org)). This event includes an exciting three days and two nights of everything from horseback riding and dancing to rockwall climbing and zip lining. When I went last year, I saw the difference this one weekend made, giving them a sense of accomplishment when they climbed a wall or making lasting connections with people with similar conditions.

At this time, we may be forced to turn away a large percentage of our clients due to lack of funds. It costs \$240 to pay for each person for an entire weekend. This includes transportation, meals, caregivers and days full of camp activities. Our goal is to raise \$10,000 by April 1<sup>st</sup>. Any amount that you are willing to donate is greatly appreciated.

Our non for profit organization, CORE Health Foundation, has a mission of removing barriers for individuals with disabilities. Sending individuals to camp so that they can participate in a life-changing experience, meets this mission. We are in dire need of contributions so that all will have a chance to join. If you or your business are interested in donating to this event, these funds would be used for the sole purpose of the benefit of our clients and are tax deductible.

Donations can be made by check to the above address with "camp" written in the memo line.  
Tax ID: 20-4395526

If you have any questions about CORE Health Foundation, please visit: [www.corehealthfoundation.org](http://www.corehealthfoundation.org). If you would like to receive information about the camp, please contact Alicia Storrier via email at [astorrier@corehealth.com](mailto:astorrier@corehealth.com). Thank you in advance for your consideration and support.

Sincerely,

---

Meredith Nichols, DPT
